HIGHLIGHTS

- ✓ No colour location shifts when dimming the LEDs.
- ✓ Composite mode at the touch of a button - reduces the amount of blue light and significantly extends the processing time.
- ✓ No heat load in the direction of light emission - only slight heating of the luminaire head.
- ✓ Rectangular, homogeneous illumination - for precise, shadow-free work on the entire worktable.
- ✓ Parallelogram-guided articulated arm with integrated gas struts: infinitely easy to adjust without opening a locking screw, no uncontrolled sagging due to inadvertent misuse.
