Arm: Extendable double scissor arm
Lamp head: Ø 180 x 220 mm
Socket: Heat-resistant insulated socket E 27
Light source: Compatible with LED retrofit (form A60), max. 14 W
Arm length: 290 – 980 mm
Reflector: Aluminum interchangeable reflector (Ø 18 cm)
Warranty: 2 years
Power connection: 1.5 m PVC cable
Plug type: Schuko (CEE 7/7)
Color: Black / aluminum silver
Protection class: I
Mounting: Wall bracket
Delivery: Without light source, without mounting material

HIGHLIGHTS

- ✓ The scissor lamp has been manufactured virtually unchanged since the 1930s and has proven itself over 100,000 times.
- ✓ Thanks to its swivel-tilt joint, wall bracket, and adjustable friction damping, it can be flexibly swiveled, tilted, and even mounted on the ceiling.
- ✓ The sturdy double scissors made of natural-colored or black anodized aluminum ensure durability.
- ✓ The metal reflector, painted white on the inside, produces a brilliant light; with a 14 W LED retrofit (approx. 1500 lm), the luminaire achieves up to 1500 lux at 40 cm.
